Allowable Subject Matter

Claims 1-41 are allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination does not fairly suggest the claimed invention for locating information records in a network containing widely distributed information of clinical records. Specifically, claims 1, 7, 11, 15, 17, 21, 22, 23, 27, 33, 37 and 41 are directed to building a database, the information data locator, correlating the query in primary database in a primary domain to locate a universal person object, the locator data including the data that identifies the remote location among the plurality of disparate organizations and enable to provide to generate virtually centralized view of record. Therefore, the claimed invention provide a way to index such records so that they can be located and accessed where-ever they are, without having to be initially transmitted to a central repository and improves manageability of the records.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
